

Smokey Powell Assistive Technology Center Update

(478) 751-4407 or 751-4426

May 7, 2010

- Job Opening will soon be posted on DOE website for additional outreach teacher. Please contact us now if you are interested. Experience in assistive technology for students with visual impairments is preferred.
- Last LV Clinic is May 11th. Clinic dates for next year will be posted this summer. You may go ahead and send in referral packets and we will place you on a waiting list first come, first served.
- Professional Learning Calendar will also be posted soon.
- If your district has equipment loaned from the Smokey Powell Center and you would like to keep it over the summer and extend your loan agreement through the FY10-11 school year, please send an email to Pam Joiner pjoiner@doe.k12.ga.us or Melinda Perkins mperkins@doe.k12.ga.us with this request. Please include all pertinent information in the email (student name, equipment name and serial number). Your email will serve as your consent to continue terms of loan agreement. You will receive a confirmation email from the SP Center. Please send an email if you prefer to send back equipment and we will arrange for a UPS pickup.
- We are attempting to update our data base of email addresses for TVIs. If you don't have to send us an email for any other reason such as applying for a job, or requesting some type of evaluation, or sending back equipment, please send an email to Melinda Perkins and say "Hi." She will then add your email address to our data base and we can keep you informed of all kinds of interesting things going on at the SPC!!! We also need to send out short surveys from time to time, so please help!
